

## Get to know Luca from Italy

### Dear Host Family!

My name is **Luca**, I am from **Italy**, born in **2009**, and my main interests are **basketball, video games, spending time with friends, traveling, mathematics, and sports in general**.

I am a calm, polite, and respectful person. At first, I can be a bit shy, but once I feel comfortable, I am open and enjoy talking and sharing experiences. I consider myself responsible, especially when it comes to school, sports, and family.

I attend a scientific high school where I study subjects like mathematics, physics, chemistry, and biology. My favorite subjects are mathematics and physical education. In the future, I would like to continue my studies and build an international life, so this exchange is very important to me.

I live in a small town in Sardinia with my mother, father, and sister. My family is very supportive of my decision to study abroad. I also have many cousins, and sometimes I help take care of the youngest one, which has taught me patience and responsibility. In my free time, I enjoy playing video games, spending time with friends, and especially playing **basketball**, which has been my passion since I was seven. It has taught me teamwork, discipline, and perseverance, and I would love to continue playing while abroad.

I have traveled to several places in Italy and Europe, and these experiences made me more open-minded and curious about different cultures. I chose **Finland** because I want to discover a culture that is new to me, learn the language, and experience everyday life there. I believe this will help me grow and prepare for my future.

Thank you for taking the time to read my letter. I am very grateful for this opportunity and look forward to meeting you.

Best regards,

Luca
